Dear Members,

Since my last letter, the Executive Committee has met to discuss matters important to the processes of the Federation. Our last gathering, in St. Louis, actually consisted of three separate meetings.

The first was with the Catholic Hospital Association, highlighted by a discussion of the Guidelines which the CHA had published and concerning which there was some disagreement between our Ad Hoc Committee and the CHA. This meeting was extremely productive in smoothing out the disagreements we had had with the CHA; as a result, we have agreed to the formation of a joint committee with CHA for more effective communication and cooperation between the two groups. Dr. Edward Kilroy was appointed chairman of this Ad Hoc Committee. It is anticipated that this committee will meet during the year and that the committees of both organizations will present a joint report.

The Executive Committee of the Federation also met in St. Louis. The business of this Committee revolved primarily around the Annual Meeting to be held in Washington, D.C., on September 8, 9, and 10, 1975.

The third meeting in St. Louis was a dinner meeting with the St. Louis Guild. Topic for discussion after dinner was "Brain Death."

I hope that all our members will be able to attend the Annual Scientific Session in September. The Program Committee, with Dr. Robert Scanlon as Chairman, has done an excellent job. It promises to be a profitable session for everyone attending.

Sincerely,

John R. Cavanagh, M.D., President
