Invitation to the

Ladies.....

New York State is honored to serve as host to the American Medical Association and its Women's Auxiliary, the latter, the parent body of all State and County Auxiliaries.

Headquarters for the Auxiliary's meeting will be the Hotel Roosevelt at Madison Avenue and 45th Street, New York City, from June 3 to 7, 1957. The Roosevelt is within walking distance of the Waldorf-Astoria Hotel where the A.M.A. House of Delegates meetings are held, and the proximity to Fifth Avenue and Madison Avenue shops, theaters, and other points of interest makes the location of headquarters ideal.

Registration will open on Sunday, June 2, 11:30 a.m. to 4:00 p.m. and continue through Thursday. On Monday, the 3rd, and Wednesday afternoon, the 5th, there will be Round Table discussions of interest and educational value to all physicians' wives. Members and guests are cordially invited.

SOCIAL ACTIVITIES include:

Monday, the 3rd - A Tea, honoring the president and president-elect.

Tuesday, the 4th - Luncheon in honor of the national past-president at which Dr. Howard Rusk, director of the Institute of Physical Medicine and Rehabilitation Medical Center, will be the guest speaker. Internationally known and an excellent speaker, Dr. Rusk needs no introduction.

Wednesday, the 5th - Luncheon in honor of the national president and president-elect. Dr. Dwight H. Murray, president of the American Medical Association, will be guest speaker.

Thursday, the 6th - Annual dinner for Auxiliary members, husbands and guests at which the principal speaker will be Professor Allen Richard Foley of Dartmouth College.

It is hoped that the physicians' wives and guests attending the Silver Jubilee of the Federation of Catholic Physicians' Guilds will participate in the social activities.

The Medical Society of the State of New York and past chairman of several meetings by the national president, Mrs. Robert Planks of Manchester, New Hampshire.

Sister Columba, administrator of St. Clare's Hospital, 415 W. 51st Street, New York City and Sister Loreto Bernard, administrator of St. Vincent's Hospital, 12th Street and 7th Avenue, New York City, have extended a very warm and cordial invitation to the physicians, their wives and guests to visit and tour their respective hospitals.

25th Anniversary

Melvin F. Yep, M.D.
President

Federation of Catholic Physicians' Guilds

As we commemorate our twenty-five years, the Federation has a great many people to whom we owe our grateful thanks for their work on our behalf.

We are indebted to our founders, Father Ignatius W. Cox, S.J., and that small group of doctors, representing some six or seven Guilds, who were able to envision and organize on a national level a united voice of Catholic physicians.

These men brought into existence our national organization which now numbers 60 constituent Guilds, with a membership of more than 4,300 Catholic physicians and a small number of dentists and pharmacists throughout the United States, Canada, and Puerto Rico.

We are grateful to all those outstanding men in Guilds who promoted the organization of these units and undertook the many tasks necessary to interest and enroll laity physicians into these centers of Catholic Action as it pertains to their chosen profession.

We are deeply obligated to those who followed Father Cox as national moderator. Father Alphonse M. Schmitalla, S.J. carried us through a period of reorganization which enabled us to have a central office where our activities could be correlated and our ideas could be disseminated through our own journal, Linacre Quarterly.

We are grateful for their work on our behalf.

We bring you into the National Catholic Welfare Conference. His diplomacy and friendly leadership have coordinated our activities with Catholic nurses and hospitals, according us a permanent place in the direction of Catholic health activities.

Our gratitude abounds to those Priests and Monsignors who are spiritual advisors to our many Guilds. They have added the moral problems of medicine to their diverse personal duties and are guiding us through these complicated days of changing social patterns. We are most grateful to the Bishops of the country who have appointed these interested and qualified men to guide us. We thank the Hierarchy of America for their interest in us and our problems.
