## ALONG HIGHWAY AND BYWAY

In this issue, we are presenting the conclusion of Father Schwi-talla's able dissertation on the Wagner-Murray bill, now pending before Congress. We are glad to note that Dr. Thomas A. McGoldrick in his official capacity as retiring president of the New York State Medical Society, protested vigorously against passage of the bill as it now stands. Dr. McGoldrick is a member of the very active Brooklyn Catholic Physicians' Guild.

We are also offering our readers an article on the European Medical Guilds. The author, Dr. Carla Zawisch, came to this country from Vienna after great trials and difficulties, and is now an instructor at Middlesex University Medical School at Waltham, Massachusetts. We hope that Dr. Zawisch will soon feel at home in this country, for we feel certain that her staunch Catholicity and profound learning will be an asset to the Catholic life of America.

The paper by Brother Michael

Brangan, one of the teaching Marxist Brothers, was read by him at the last meeting of the Belleville Guild. Although not bearing directly on a medical subject, we yet feel that it will be of interest to other Guild members.

Summer is here and with it vacation time. We hope our Guild members will all be able to enjoy a little rest and recreation, but we also hope that they will not forget to send us any medical articles which they may have, especially if they deal with Catholic medical ethics.

At the beginning of this page, we stated that the retiring president of the New York State Medical Society is a member of the Brooklyn Guild. We are also happy to report that Dr. Edward R. Cunniffe, former president of the Bronx County Medical Association, and now president-elect of the New York State Medical Society to take office in 1945, is a member of the Bronx Catholic Physicians' Guild.
