Members of the National Seminar on Jesuit Higher Education and A Note to Contributors

COMING UP

The next issue, January 2009, will continue the theme of mission as applied to professional education. We are asking writers from the various disciplines to discuss how and to what degree the Jesuit mission applies not just to the core, but also to law, medicine, communications, nursing, education, business and the other schools and programs which, historically, led to our schools calling themselves Universities. More and more it has become clear that the responsibility for mission must permeate every element of university life. Our tentative plan is to follow this theme with a deeper examination of both graduate education and the overall quality of intellectual life in Jesuit higher education.
