THE JESUITS AND THE ARTS 1540–1773
EDITED BY JOHN W. O’MALLEY, S.J. AND GAUVIN ALEXANDER BAILEY

The Jesuits and the Arts, 1540-1773 is the first survey ever published of the Jesuits’ global artistic enterprise in Europe, Asia, and the Americas, from the foundation of the Society of Jesus in 1540 to its suppression in 1773. Here the Jesuit's extraordinary commitment to the arts—the subject of a groundswell of recent scholarly work—comes spectacularly alive, with over 476 full color, high density images of Jesuit buildings, paintings, sculpture, theatrical arts, and music from around the globe, many of them published here for the first time. No other book dealing with this aspect of the Jesuits’ activities is as comprehensive or as profusely illustrated. Authors of the thirteen essays are leading specialists from Italy, Germany, Austria, France, Spain, Argentina, and the United States; some of them are published here in English for the first time.

Although much of this volume first appeared in Italian, French, and Spanish in a version edited by Giovanni Sale in 2003, the English-language version has updated and amplified many of the chapters, added a chapter on the Jesuits in North America, included many new color images, and greatly expanded the captions and bibliographies.

In many significant ways, The Jesuits and the Arts, 1540-1773 is a new book. Because of generous subscriptions toward publication, Saint Joseph’s University Press is able to offer this sumptuous volume at an affordable price.
